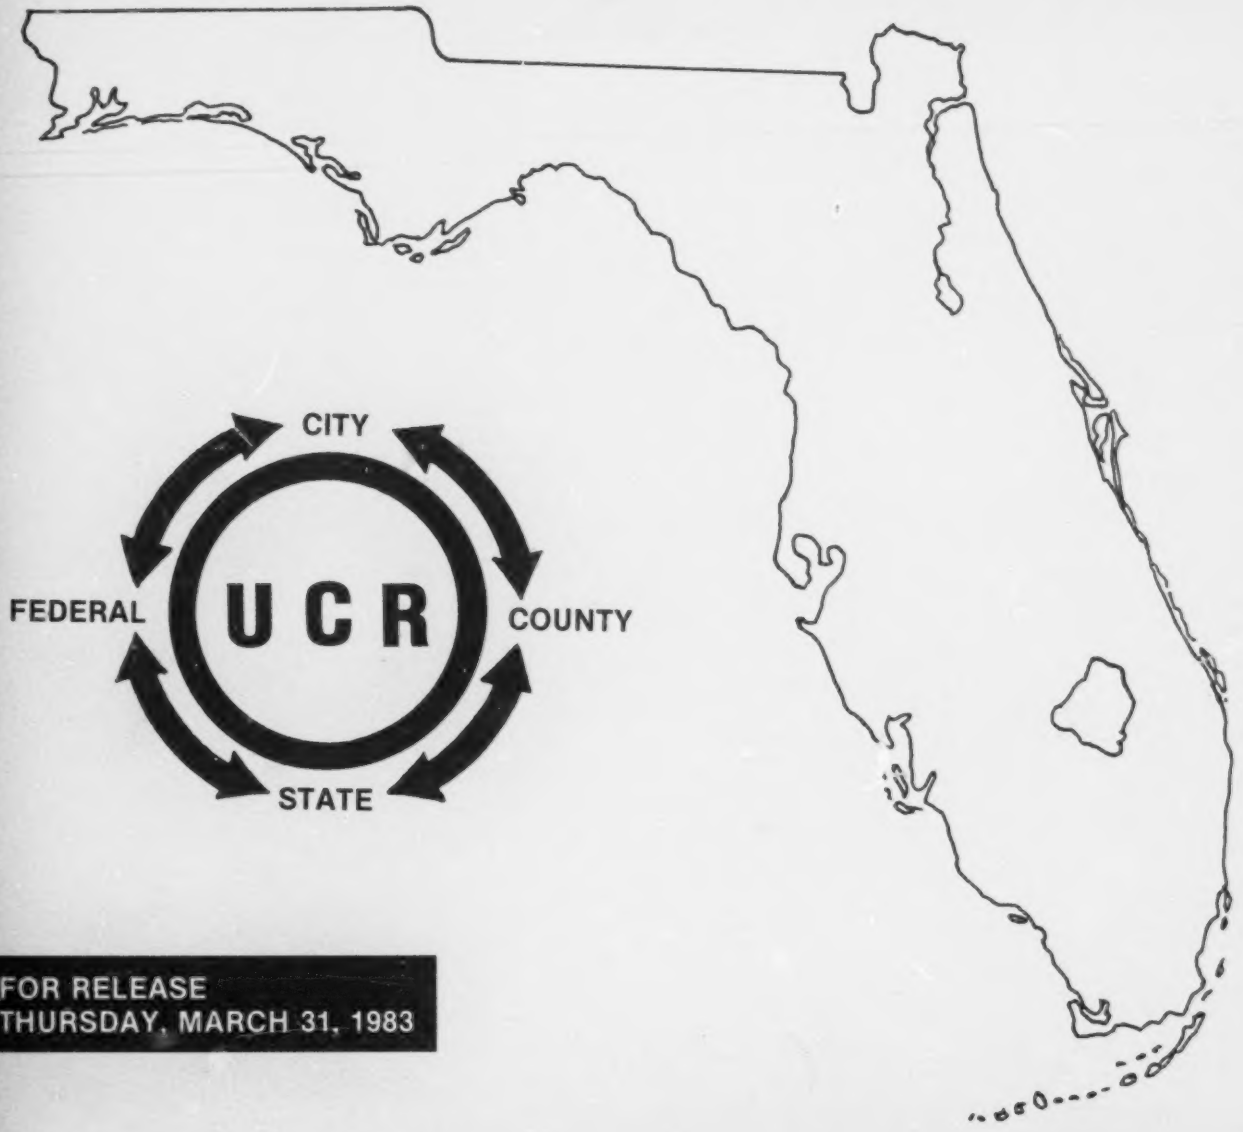
Department of Law Enforcement

1982 ANNUAL REPORT

CRIME IN FLORIDA



FOR RELEASE
THURSDAY, MARCH 31, 1983

UNIFORM CRIME REPORTS

State of Florida

1982

ANNUAL REPORT

COMPILED BY THE
FLORIDA DEPARTMENT OF LAW ENFORCEMENT
TALLAHASSEE, FLORIDA

In accordance with Florida Statute 283.27, this public document was promulgated at an annual cost of $13,093.92, or $5.24 per copy to inform the Governor, Legislature, prosecuting authorities and law enforcement agencies of the nature and extent of crime in the State of Florida.

Law Enforcement Code of Ethics

As a Law Enforcement Officer, *my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.*

I will *keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.*

I will *never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.*

I recognize *the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.*

DOYLE CONNER, *Commissioner of Agriculture*
RALPH D. TURLINGTON, *Commissioner of Education*

CRIME IN FLORIDA
1982 Annual Report

Dear Governor Graham and Members of the Cabinet:

I am pleased to forward to you the 1982 Annual Report, *Crime in Florida,* which will provide an overview of the nature and extent of crime in our State.

For the first time since 1976, the actual number of serious crimes reported in Florida has decreased from the previous year. With almost 39,000 fewer serious crimes reported, Floridians may think that the crime problem is no longer a serious threat and will ultimately disappear. I would caution anyone not to think in those terms since there is still an average of one major crime committed for every thirteen residents of our State.

As the statistics indicate, this is just the beginning; the decrease in crime must continue. I would urge all Floridians to continue their combined efforts through various programs from the state to local levels, to assist in reducing even further the threat of crime.

This year our publication has several new sections which I would like to bring to your attention.

- On pages 1-2 there is a brief summary of the services of the Department of Law Enforcement.
- Page 10 explains the role of a newly created National Uniform Crime Reports Steering Committee.
- Comparative annual statistical figures regarding Agricultural Crime are shown on pages 185-188.
- Services offered through the Missing Children Information Clearinghouse are shown on page 1.
- Aspects of the Florida Intelligence Center are detailed on page 180.
- Compiled results of an 18-month federally funded victim data collection program are shown on pages 189-191.

Through these and other changes being considered for the future, it is hoped that this report will become more useful. Also, a survey form has been included with this issue in an attempt to gain insight into the needs and desires of users of the report.

My appreciation is expressed to all the law enforcement agencies that have submitted data and assisted in the compilation of the report.

Sincerely,

Robert R. Dempsey
Commissioner

THE FLORIDA DEPARTMENT OF LAW ENFORCEMENT

The Florida Department of Law Enforcement is a multi-faceted state investigative agency offering a wide spectrum of services and technical assistance to local law enforcement agencies, which in fiscal year 1982-83 was authorized 921 positions and a budget of over $39.6 million. Services provided by the Department are listed below.

Office of the Executive Director

- Formulates policy and provides overall command of and direction to the Department of Law Enforcement.
- Assures the Department functions in compliance with Florida Statutes, administrative rules, departmental procedures and productive management practices.
- Through its office of Executive Investigations, provides investigative support for Governor-ordered investigations into public corruption.
- Provides for protection of the Governor and First Family.

Division of Criminal Investigation

- Investigates organized and multi-jurisdictional criminal activity in the State of Florida.
- Provides investigative and analytical assistance to local law enforcement agencies.
- Identifies and apprehends subsequent prosecution violators of various state laws.
- Maintains liaison with other local, state and national criminal justice agencies to assure proper utilization of intelligence and investigative resources.

Division of Criminal Justice Information Systems

- Develops and maintains telecommunications for providing the necessary remote file access to users in the criminal justice community.
- Establishes and maintains systems and applications which collect, store and disseminate basic operational and management information to state and local criminal justice agencies.
- Provides law enforcement, criminal justice and authorized non-criminal justice entities a central point for timely and current identification and criminal history data.
- Provides law enforcement, the criminal justice community, the Governor, Cabinet, Legislature and the general public crime and crime-related data for informative and/or decision-making assessments.
- Serves as the State's center for the collection, analysis and dissemination of information relating to missing children.

Division of Criminal Justice Standards and Training

- Establishes and maintains, through the Criminal Justice Standards and Training Commission, uniform minimum standards for the employment and training of law enforcement and correctional officers.
- Establishes and maintains minimum curriculum requirements for schools training law enforcement and correctional officers.
- Ensures the competencies of local and state law enforcement and correctional officers through the process of certification and decertification.
- Conducts comprehensive studies of the variation in salary scale, education and training of law enforcement and correctional officers in Florida for presentation to the Legislature.
- Maintains the salary incentive program for state and local law enforcement and correctional officers.
- Develops advanced and highly specialized training programs for law enforcement and correctional officers and support personnel.

- Ensures the competencies of criminal justice training instructors.

- Administers the Law Enforcement and Correctional Officer Training Trust Funds.

Division of Staff Services

- Provides the Department efficient and effective systems of personnel management, fiscal management and control, audit inventory and purchasing.

- Provides guidance and professional expertise in the preparation of the legislative and operating budget of the Department.

- Conducts comprehensive character and fitness suitability investigations on applicants considered for employment with the Department.

- Provides training programs for all Department personnel and upon request to provide specialized training to local law enforcement agencies.

- Provides a statewide criminal analysis laboratory system to meet the needs of the Florida Criminal Justice System.

- Provides administrative support and direction to the Medical Examiners' Commission, thereby assisting that Commission in carrying out its responsibilities under Chapter 406, Florida Statutes.

Division of Local Law Enforcement Assistance

- Continually seeks, effects and maintains professional, credible and effective working relationships between local and state law enforcement representatives.

- Collects, analyzes, stores and disseminates crime specific intelligence data for use by local law enforcement agencies, thereby increasing the effectiveness of their investigative and enforcement efforts.

- Serves as a conduit, allowing local law enforcement agencies better access to the specialized resources available through the Department of Law Enforcement.

- Assures the preparedness of local and state law enforcement agencies to respond effectively to a broad range of emergency situations.

- Develops, prepares, and distributes an assortment of publications relative to criminal intelligence and investigative information to the criminal justice community.

To summarize, the services mentioned above are designed to assist in many facets of the criminal justice system. The Department is continuously seeking to enhance its services to the law enforcement community and other interested persons. You are encouraged to send your comments and suggestions regarding this publication or other services of the Department to:

Commissioner

THE FLORIDA UNIFORM CRIME REPORTING PROGRAM

INTRODUCTION

Florida was one of the first states to develop its own statewide program for the collection, compilation and dissemination of Uniform Crime Reports (UCR) by working closely with the Federal Bureau of Investigation's national UCR Program. With the development of the Florida Crime Information Center (FCIC), UCR has been an integral part of the statewide computerized law enforcement information system.

In January 1971, the Uniform Crime Reports and Statistics Bureau of the Department of Law Enforcement, initially began the collection of monthly uniform crime reports from county and municipal law enforcement agencies. As mandated by the Florida Legislature, seventeen publications entitled *Crime in Florida* have previously been disseminated. This document is the twelfth annual report, presenting statistical information collected and compiled through the year 1982.

FLORIDA UCR PROGRAM

The Florida Legislature, in establishing the Uniform Crime Reports (UCR) statute, mandated the responsibility and authority for UCR data collection and dissemination to the Florida Department of Law Enforcement (FDLE) as follows:

FLORIDA STATUTES, CHAPTER 943

Section 5. Division of criminal justice information systems.—

(1) The division shall:

(c) Establish a system of uniform crime reports and statistical analysis.

1. All state, county and municipal law enforcement agencies shall submit to the department uniform crime reports setting forth their activities in connection with law enforcement.

2. It shall be the duty of the division, under the supervision of the executive director, to adopt and promulgate rules and regulations prescribing the form, general content, time and manner of submission of such uniform crime reports required pursuant to chapter 120, and shall have the force and effect of law. Willful or repeated failure by any state, county or municipal law enforcement official to submit the uniform crime reports required by this act shall constitute neglect of duty in public office.

3. The division shall correlate the reports submitted to it pursuant to subparagraph 1 and shall compile and submit to the governor and the legislature seminannual reports based on such reports. A copy of said reports shall be furnished to all prosecuting authorities and law enforcement agencies.

PURPOSE AND OBJECTIVES

The quantitative statistical data derived from the UCR Program will provide assistance in determining the overall scope of the reported criminal activity in Florida and will aid in making effective management studies possible.

The fundamental objectives of the Florida UCR Program are:

(1) Inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in Florida, its magnitude and its trends.

(2) Provide law enforcement administrators with criminal statistics for administrative and operational use.

(3) Determine who commits crimes by age, sex, race, whether resident or nonresident, and other social attributes in order to find the proper focus for crime prevention and enforcement.

(4) Provide base data and statistics to measure the effectiveness of Florida's criminal justice system.

(5) Provide base data and statistics to measure the effects of prevention and deterrence programs.

(6) Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

(7) Provide data to assist in the assessment of societal and other causes of crime for the development of theories of criminal behavior.

(8) Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURE

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily, weekly, monthly and annual basis. Fingerprints of all adult arrests for felony and misdemeanor (nontraffic) offenses are collected daily. Finally, employee data for law enforcement agencies is collected and published annually.

Starting in January 1972, several minor modifications in reporting procedures were made in response to requests from local agencies and the FBI. Arrests for worthless checks and for narcotics paraphernalia are indicated separately. In January 1973, larceny under $50 (including attempts) was added as an index offense. A program modification in 1975 involved the expansion of drug classifications and new, expanded property breakdowns. In January 1976, a new category under motor vehicle theft was added to classify motorcycles separately.

Commencing on January 1, 1976, the traditional method of collecting UCR data on a monthly basis was enhanced to a sophisticated offense-by-offense program in Florida. The collection process involves one of three submission methods for an agency: daily through terminal entries, weekly from paper code forms or monthly by computer tapes. With the capability of collecting more detailed data the utility of Florida's UCR Program is enhanced from the contributor and state viewpoint for management, operational and crime trend analysis purposes. By virtue of this enhancement to Florida's UCR Program a more accurate assessment of reported criminal activity can be made. Municipal police and county sheriff departments report the individual offense data known to them in the following crime categories: murder, non-traffic manslaughter, forcible rape, robbery, assault, breaking and entering—burglary, larceny, motor vehicle theft and arson. Offense data is taken from the records of complaints received by law enforcement agencies from victims, witnesses or other sources, or discovered by agencies during their own operations. Complaints determined by subsequent investigations to be unfounded are eliminated from the count. The resulting data on individual "offenses known to law enforcement officials" in these crime categories is reported, without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy or any other consideration. Municipal and county agencies also report supplemental offense information such as the number of victims, the value of property stolen and recovered, circumstances surrounding homicides and other pertinent data. Additionally, reports of persons arrested are submitted. These reports provide information concerning the age, sex, race and residency of all persons arrested by each individual law enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

VERIFICATION

An obvious concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aids such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors. Additional controls therefore are necessary.

Each individual offense report received by the Department is recorded, examined and verified for accuracy and for reasonableness. The verification process includes numerous checks to ensure the validity of information. The elimination of duplication of reporting by individual contributors receives particular attention. Minor errors are corrected by telephone or FCIC terminal contact between UCR Field Representatives and the reporting agency. Substantial variation and errors are adjusted through personal contacts with individual contributing agencies. The personal contacts are invaluable to the accuracy and quality of repo ting. Field Representatives are engaged in a constant educational effort and provide a vital

link between the UCR Program and the contributor.

INCIDENT REPORTING AND RECORDS MANAGEMENT SYSTEM

As an adjunct to the UCR Program, Field Representatives assist Florida law enforcement agencies as requested, in the development of an Incident Reporting and Records Management System (IRRMS). This system can enhance or replace a law enforcement agency's records system in its method of collecting, storing and retrieving all police service information pertaining to a particular criminal case or police activity. IRRMS can provide small and medium size law enforcement agencies a source of complete information that can be utilized by the entire criminal justice system and by administrators as a tool in decision-making policies.

STATISTICAL ANALYSIS

The Florida UCR Program, by examining the various characteristics of offense and arrest data, provides statistical analysis reports to help law enforcement personnel throughout the state in crime prevention. The statistical analyses in each report assists in such areas as the proper assignment and deployment of preventive patrols and aids in the possible reduction of crime through the early identification of patterned activity. Two sources, for example, that can be used when preparing these special statistical reports are the geographical indicator printout and the case summary report. The purpose of the geographical indicator is to depict the number of specific crimes that occur in a particular area. The case summary report allows an agency to review the status (whether cleared by arrest, exceptional or unfounded) of any particular case. In addition, through special requests, other statistical compilations may be prepared for unique situations in local law enforcement agencies.

CONTRIBUTING AGENCIES AND POPULATION

There are currently 335 law enforcement agencies throughout the state contributing directly to the Florida UCR Program—66 county law enforcement agencies and 269 municipal agencies. In addition, 5 state law enforcement agencies, 9 campus police departments and the Seminole Indian Reservation submit data to the program. Daily, weekly, monthly and annual uniform crime reports received from these agencies represent statistical data covering approximately 100 percent of the estimated Florida population.

The 1982 population figures for the State of Florida, county and municipalities were provided by the Division of Population Studies, Bureau of Economic and Business Research, University of Florida. These population estimates, as of April 1, 1982, were produced under contract for the Department of Administration, for incorporation into the 1982-83 Revenue Sharing Program.

The relative statewide estimates reflect populations of 10,375,332 for the year 1982 and 10,097,754 for the year 1981.

SMSA CONCEPTS

The Standard Metropolitan Statistical Areas (SMSA) have been designated for data uniformity among government agencies and between these agencies and the public to include industry and state and local governments. The general concept of SMSA is one of an integrated economic and social unit with a recognized population nucleus. To be more specific, in designating any county as belonging to SMSA, the National Bureau of Standards applies certain prescribed criteria when making this determination.

A Standard Metropolitan Statistical Area always includes a city (cities) of specific population which constitutes the central city and the county (counties) in which it is located. A Standard Metropolitan Statistical Area also includes contiguous counties when the economic and social relationships between the central and contiguous counties meet specified criteria of metropolitan character and integration.

1. Each Standard Metropolitan Statistical Area must include at least:
   (a) One city with 50,000 or more inhabitants, or
   (b) A city having a population of at least 25,000 which, with the addition of the population of contiguous places, incorporated or unincorporated, which have a **population density** of at least 1,000 persons per square mile, and which together constituted for

general **economic** and **social** purposes, a single community with a combined population of at least 50,000 provided that the county or counties in which the city and contiguous places are located has a total population of at least 75,000.

2. A contiguous county will be included in a Standard Metropolitan Statistical Area if:

   (a) At least 75.00% of the resident **labor force** in the county is in the nonagricultural labor force, and

   (b) At least 30.00% of the employed workers living in the county **work in the central county** or counties of the area.

3. A contiguous county which does not meet the requirements of Criterion 2 will be included in a Standard Metropolitan Statistical Area if at least 75.00% of the resident labor force is in the nonagricultural labor force and it meets two of the following additional criteria of metropolitan character and one of the following criteria of integration.

   (a) Criteria of Metropolitan Character.

      (1) At least 25.00% of the **population is urban.**

      (2) The county had an increase of at least 15.00% **in total population during the period** covered by the two most recent Census of Population.

      (3) The county has a population **density** of at least 50 persons per square mile.

   (b) Criteria of Integration.

      (1) At least 15.00% of the employed workers living in the county work in the central county or counties of the area, or

      (2) The number of people working in the county who live in the central county or counties of the area is at least 15.00% of the employed workers living in the county, or

      (3) The sum of workers **commuting** to and from the central county or counties is equal to 20.00% of the employed workers living in the county.

From this the following all-inclusive and non-overlapping groupings of the entire state population were established. These groups, referred to as Community Types, are as follows:

1. Metropolitan — Municipalities of over 250,000 population.

2. Cities — Municipalities of 50,000 to 250,000 population.

3. Suburban — Municipalities under 50,000 and unincorporated jurisdictions in SMSA counties.

4. Non-Suburban — Incorporated jurisdictions under 50,000 in non SMSA counties.

5. Rural — Unincorporated jurisdictions in non SMSA counties.

These five major Community Types can be compared directly, one against the other, or further reduced to their lowest common population grouping, to compare each Community Type internally. This method of grouping population entities fits well with the system used by the FBI in dividing the population types in the United States, and provides a common base for development of all future statistics on crime information. Although the primary emphasis of all future crime analysis will be made on the basis of the five Community Types, there will be occasions when other population groupings will more readily fit the analysis criteria. Generally speaking, these additional needs can be met by dividing the state into zones, based on a social and economic likeness of individuals within, and then splitting these groups into Community Types or counties for the final analysis. It is felt that additional research may reveal additional or more precise grouping patterns.

CLASSIFICATION AND LISTING OF UCR OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Florida law enforcement agencies. They consist of the following offenses:

1A. **Murder** — The willful (nonnegligent) killing of a human being.

1B. **Manslaughter** — The killing of a human being by the act, procurement or culpable negligence of another.

2. **Forcible Rape** — The carnal knowledge of a female forcibly and against her will.

3. **Robbery** — The felonious and forcible taking of the property of another, against his will, by violence and/or putting him in fear.

4. **Aggravated Assault** — An attempt or offer, with unlawful force or violence, to do physical injury to another.

5. **Breaking and Entering — Burglary** — An unlawful entry or attempted forcible entry of any structure to commit a felony or larceny.

6. **Larceny (Except Motor Vehicle Theft)** — The unlawful taking of the property of another with intent to permanently deprive him of ownership.

7. **Motor Vehicle Theft** — The larceny or attempted larceny of a motor vehicle.

Part II offenses are made up of all other crimes not classified as Part I crimes. Information on Part II offenses is reported only when an arrest has been made. Part II crimes for UCR purposes are as follows:

8. **Other Assaults — Not Aggravated** — Assaults and attempted assaults which are simple and minor in nature.

9. **Arson** — Willful or malicious burning with or without intent to defraud. Includes attempts.

10. **Forgery and Counterfeiting** — Making, altering, uttering or possessing, or attempts to make, alter, utter or possess with intent to defraud. Anything false which is made to appear true.

11A. **Fraud** — Fraudulent conversion of another's money or property by false pretenses.

11B. **Worthless Checks** — Fraudulent conversion through bad checks — excludes forgery and counterfeiting.

12. **Embezzlement** — Misappropriation or misapplication of money or property entrusted to one's care, custody or control.

13. **Stolen Property** — All offenses of buying, receiving and possessing stolen property, as well as all attempts to commit any of these offenses.

14. **Vandalism** — Willful or malicious destruction, injury, disfigurement or defacement of property without consent of the owner or persons having custody or control.

15. **Weapons: Carrying, Possession, etc.** — All violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers and all attempts to commit any of the offenses.

16. **Prostitution and Commercialized Vice** — Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, and all attempts to commit any of these offenses.

17. **Sex Offenses (Except Forcible Rape, Prostitution, and Commercialized Vice)** — Statutory rape, offenses against chastity, common decency, morals and the like. Includes attempts.

18. **Narcotic Drug Laws** — Includes all arrests for violations of State and Local Ordinances specifically those relating to the unlawful possession and sale of narcotic drugs.

19. **Gambling** — Promoting, permitting or engaging in gambling.

20. **Offenses Against the Family and Children** — Non-support, neglect, desertion or abuse of family and children.

21. **Driving Under the Influence** — Driving or operating any motor vehicle while drunk or under the influence of liquor or drugs.

22. **Liquor Laws** — State or local liquor law violations, except "drunkenness" and "driving under the influence".

23. **Disorderly Intoxication** — Drunk and disorderly.

24. **Disorderly Conduct** — Breach of peace. (Disorderly persons).

25. **Vagrancy** — Vagabondage, begging, loitering, etc.

26. **All Other Offenses** — All violations of state and local laws except classes 1-25 and 28-29.

27. **Suspicion** — Not reported in Florida.

28. **Curfew and Loitering Laws (Juveniles)** — Offenses relating to local curfew or loitering ordinances, where such laws exist.

29. **Runaway (Juveniles)** — Limited to juveniles taken into protective custody who have run away from the reporting jurisdiction.

EXPANDED DATA COLLECTION PROGRAM

During the past three years, several special data collection programs have been implemented. Two of these programs involve data which is forwarded to the UCR Program on a voluntary basis. These programs involve the collection of drug seizure data and agricultural crime information. The third and most recent program to be developed was the vicitim data collection system.

Enacted legislation in Florida in October, 1979, placed a requirement for mandatory sentencing for convictions based on large quantity possession and sale of various narcotics and other controlled substances. The narcotics drug survey form is a means whereby pertinent data can be collected on specified large volume drug-related offenses to provide input as to the nature and

magnitude of these operations in the State of Florida. Seizures are voluntarily reported by all law enforcement agencies within that county. Federal seizures with no local or state participation are not included.

Studies in 1980 showed that agricultural crime accompanied by high property losses was increasing, which resulted in a great concern by state and local law enforcement agencies throughout Florida. The Florida Department of Law Enforcement's UCR Program, working in conjunction with the Attorney General's Ad Hoc Committee on Agricultural Crime, developed a form which requests incident and property data relating solely to agricultural crime. Since almost all agricultural crime occurs in the rural areas of the state, the survey form was sent only to the county sheriff's offices. Agricultural crime data is submitted to the UCR Program on a voluntary basis for compilation and analysis.

Legislation passed in 1977 provided the origin and impetus for development of a system designed to collect data on the victims of crime in Florida. Combined efforts by the Bureau of Criminal Justice Planning and Assistance and the Florida Department of Law Enforcement resulted in acquiring a two-phase Law Enforcement Assistance Administration (LEAA) grant to develop and implement a victim data collection system. Victim data was collected for the period July 1, 1981 through June 30, 1982. Various victim characteristics were collected on the seven index offenses plus arson, simple assaults, fraud, vandalism and other sex offenses. Victim data was collected from 38 agencies randomly selected to represent a statistically valid data base for the state as a whole.

Detailed information is provided in separate sections of this publication on the drug seizure, agricultural crime, and victim data collection programs.

RECENT DEVELOPMENTS

The Bureau of Justice Statistics, U.S. Department of Justice, will undertake a comprehensive study of the National UCR Program through a three-year 1.5 to 2.0 million dollar grant. The purpose of the study will be to develop a methodology for improving UCR to make it a more effective instrument for use in the measurement of crime in the United States. One area of interest that the study will consider is the determination of population criteria. This will be especially important to the Florida UCR Program since a high influx of tourists visit the state each year.

UCR USAGE

There are inherent limitations in current crime reporting practices. Of primary importance is the question of how much crime is being reported. Law enforcement agencies are only capable of reporting crimes known to them. In many instances, citizens do not report crimes directly to these agencies but may report them to the prosecuting authorities. A considerable volume of crime is not reported to law enforcement agencies because the victims may consider the offenses against them to be of very little consequence; they believe there is nothing the police can do about them; they fear retaliation from offenders or have shared willingly in such offenses as illegal sex acts, gambling or drug usage. Consequently, information concerning some offenses is never entered in the present statistical reporting system.

Furthermore, only arrest data is submitted on Part II crimes, therefore, current UCR statistics do not necessarily measure the true incidence of crimes or the actual economic loss incurred by victims.

Crimes and arrests should not be compared on a one-to-one basis, as a crime is an event and an arrest relates to an individual. For example, several crimes may be solved by one arrest or many persons can be arrested for committing one crime.

Crime clearances, the value of property stolen and recovered, and arrests, reflect the current year's activity and will include data related to crimes reported in prior years.

SUMMARY

Set forth below are some additional conditions which will, by type and volume, affect the crime that occurs from place to place. These same conditions will also affect the amount of crime actually reported.

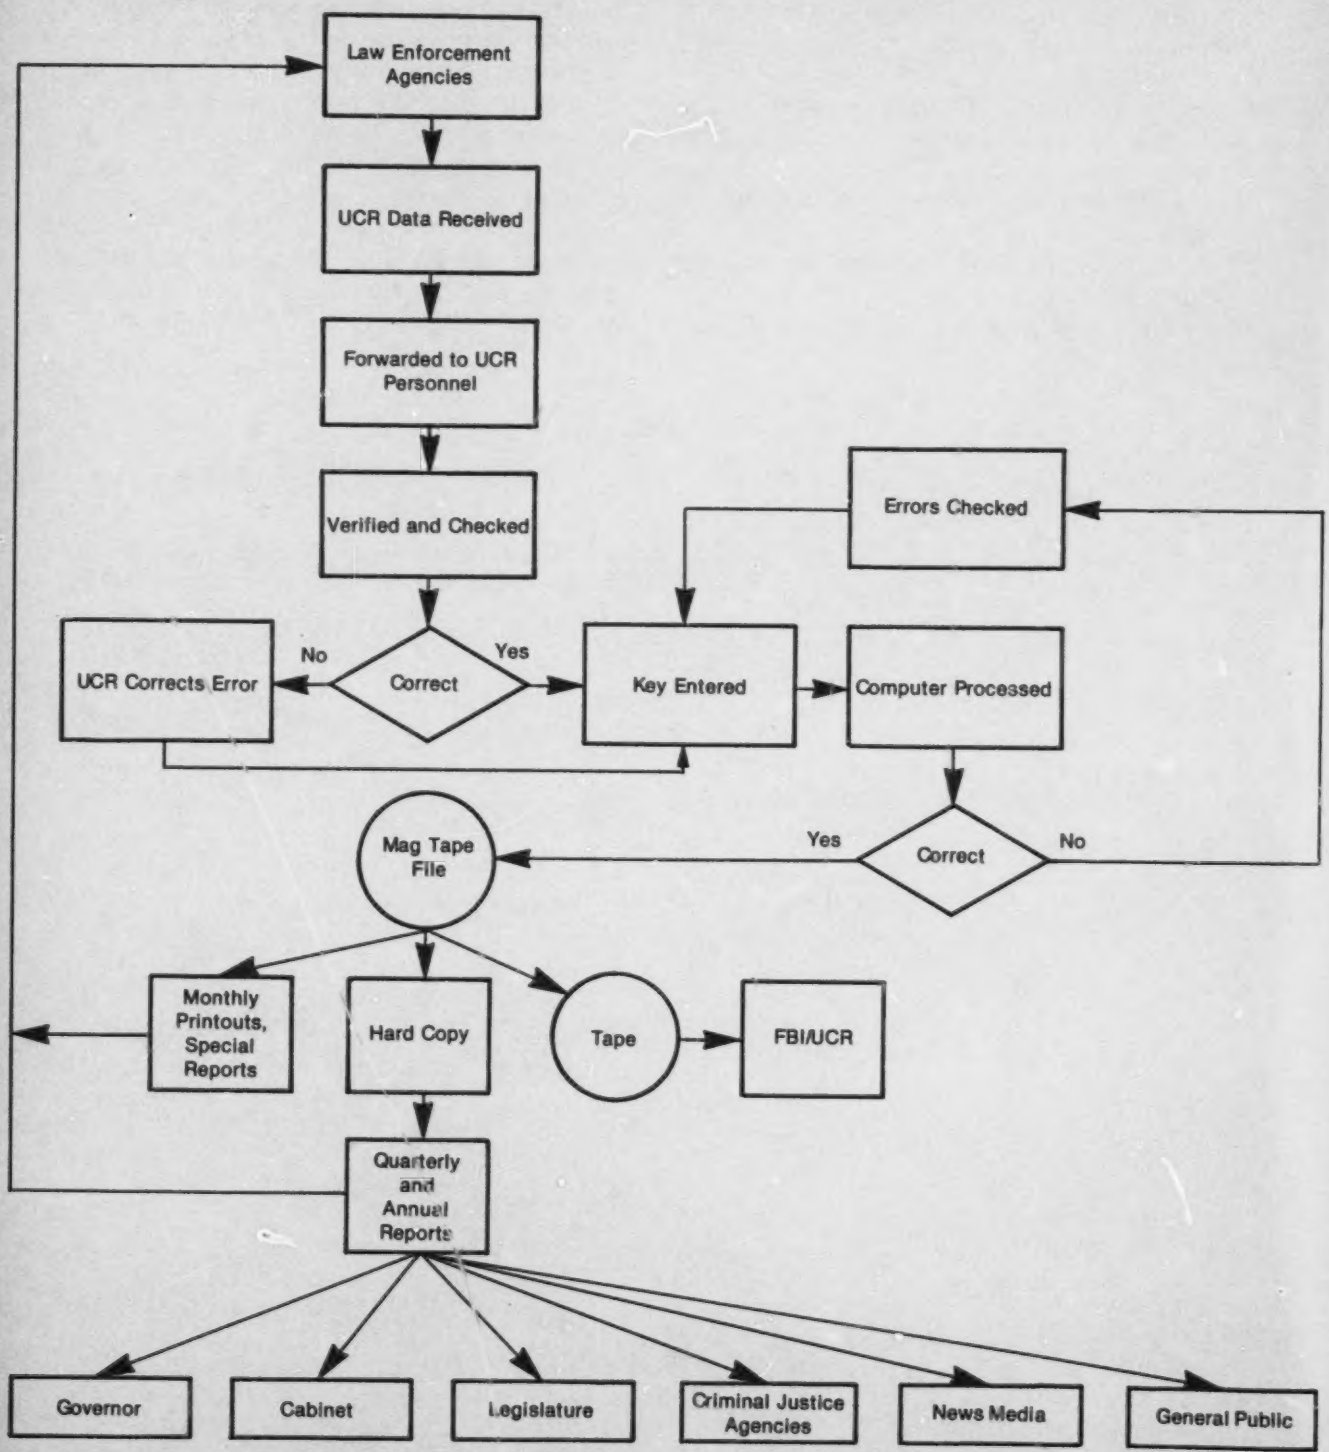
1. Density and size of the community population and the metropolitan area of which it is a part.
2. Composition of the population with reference particularly to age, sex and race.

3. Economic status and mores of the population.
4. Relative stability of population including commuters, seasonal, and other transient types.
5. Climate, including seasonal weather conditions.
6. Educational, recreational, and religious characteristics.
7. Effective strength of the police force.
8. Standards governing appointment to the police force.
9. Policies of the prosecuting officials and the courts.
10. Attitude of the public towards law and enforcement problems.
11. The administrative and investigative efficiency of the local law enforcement agency including the degree of adherence to crime reporting standards.

The information collected for this report portrays the most accurate and realistic assessment available of the crime situation in Florida. UCR statistics are not designed as an indicator of agency activity for use in direct comparisons but pertain to a specific geographic area. A casual relationship exists between crime and a great many socio-economic factors, although presently no definite theories exist. However, reported crime activity is a measurable quantity and, as such, should be used to present the clearest possible picture of the dimensions, fluctuations and impact of crime in the State of Florida.

UCR SYSTEM FLOW

The Uniform Crime Reports Program of the Florida Department of Law Enforcement is continuously dedicated to the goal of providing complete, reliable, and accurate statistical data on crime in Florida. The following systems flow chart shows the procedures used by the UCR staff to handle data received from contributing agencies.



Florida Offense Data
Index Crime Analysis

1982 FLORIDA CRIME SUMMARY AND PRESS RELEASE

On March 31, 1983, the Florida Department of Law Enforcement released its twelfth Annual Florida Uniform Crime Report, reflecting a general overview of reported crime and related data during 1982.

CRIME VOLUME

The volume of reported index crimes (Violent: Murder, Rape, Robbery, Aggravated Assault; Nonviolent: Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft) decreased 4.8 percent from 1981.

- Total Volume — 777,517 Index Crimes
- Time Frequency — 1 Index Crime every 41 Seconds
- Population Frequency — 1 Index Crime for every 13 Residents
- Most Notable Violent Index Crime Decrease — 12.6 percent decrease in Robbery
- Most Notable Nonviolent Index Crime Decrease — 12.2 percent decrease in Breaking and Entering—Burglary

*CRIME RATE

The 1982 crime rate decreased to 74.9 index crimes for every 1,000 residents.

- Violent Crime Rate — decreased to 9.0 index crimes/1,000 residents
- Nonviolent Crime Rate — decreased to 65.9 index crimes/1,000 residents

**MODIFIED CRIME RATE

The 1982 modified crime rate was 74.2 index crimes for every 1,000 residents.

- Violent Modified Crime Rate — 8.9 index crimes/1,000 residents
- Nonviolent Modified Crime Rate — 65.3 index crimes/1,000 residents

STANDARD METROPOLITAN STATISTICAL AREAS (SMSA) (See page 7 for definition)

- SMSA
  - Total Index Crime — 5.1 percent decrease
  - Violent Index Crime — 5.1 percent decrease
  - Nonviolent Index Crime — 5.1 percent decrease
- Non SMSA
  - Total Index Crime — 1.2 percent decrease
  - Violent Index Crime — 0.4 percent increase
  - Nonviolent Index Crime — 1.3 percent decrease

COMMUNITY TYPES (See page 8 for definition)

- Metropolitan Community Type
  - Total Index Crime — 1.6 percent decrease
  - Violent Index Crime — 5.2 percent decrease
  - Nonviolent Index Crime — 0.9 percent decrease
- City Community Type
  - Total Index Crime — 4.6 percent decrease
  - Violent Index Crime — 1.9 percent decrease
  - Nonviolent Index Crime — 4.9 percent decrease
- Suburban Community Type
  - Total Index Crime — 6.5 percent decrease
  - Violent Index Crime — 6.4 percent decrease
  - Nonviolent Index Crime — 6.5 percent decrease
- Non-Suburban Community Type
  - Total Index Crime — 0.3 percent increase
  - Violent Index Crime — 1.5 percent decrease
  - Nonviolent Index Crime — 0.6 percent increase
- Rural Community Type
  - Total Index Crime — 2.3 percent decrease
  - Violent Index Crime — 1.9 percent increase
  - Nonviolent Index Crime — 2.7 percent decrease

ARSON

- Total Volume Reported — 7.5 percent decrease
- Value of Property Destroyed — $25,678,288
- Most Frequent Location — single occupancy, residential

* Rates do not include transient population totals.
** Refer to page 16 or explanation of modified crime rate.

*POPULATION

Florida's population increased 2.7 percent in 1982. This reflected a populated density of nearly 192 people per square mile.

- SMSA Population — 2.5 percent increase
- Non SMSA Population — 4.5 percent increase

VALUE OF PROPERTY STOLEN

The dollar loss of reported property stolen reveals a 6.1 percent decrease to a total of $568,611,280. Law enforcement agencies recovered 21.1 percent of the loss, or $120,115,002.

CLEARANCE RATE

- Index Crime Clearance Volume — 174,264 Crimes Cleared
- Total Index Clearance Rate — 22.4 percent
- Violent Index Crime Clearance Rate — 50.7 percent
- Nonviolent Index Crime Clearance Rate — 18.6 percent

ARRESTS

Criminal arrests in Florida increased 12.8 percent.

- Index Crime Arrests — 5.0 percent increase
- Index Crime Arrests Volume — 145,867
- Total Arrest Volume — 523,005
- Narcotic Drug Law Violation Arrests — 4.0 percent increase
- Age Breakdown of Total Arrests
  - Under age of 15 — 5.0 percent
  - Under age of 18 — 14.6 percent
  - Under age of 21 — 28.6 percent
  - Under age of 25 — 46.8 percent
- Adult Arrests
  - Total Arrests — 17.6 percent increase
  - Part I Offense Arrests — 12.7 percent increase
  - Part II Offense Arrests — 19.1 percent increase
- Juvenile Arrests
  - Total Arrests — 8.6 percent decrease
  - Part I Offense Arrests — 10.7 percent decrease
  - Part II Offense Arrests — 6.0 percent decrease

LAW ENFORCEMENT OFFICERS KILLED

There were five Florida Law Enforcement officers killed in the line of duty during 1982.

LAW ENFORCEMENT OFFICERS ASSAULTED

- Total Assaults — 0.9 percent increase
- Total Volume of Assaults — 6,032
- Percent of Assaults with Personal Injury — 19.9 percent
- Percent Assaults without Personal Injury — 80.1 percent

RATIO OF LAW ENFORCEMENT EMPLOYEES

As of October 31, 1982, the number of full-time law enforcement employees (sworn and civilian) in Florida increased 9.7 percent over 1981 to 31,276. In 1982, there were 20,080 sworn officers in Florida; the rate per 1,000 residents was 1.9 sworn officers, reflecting no change over the 1981 rate. This does not include state law enforcement, campus police and the Seminole Indian Reservation employees.

**DRUG SEIZURES

- Total Seizures — 18.3 percent decrease
- Total Amount Seized — 69.0 percent decrease
- Total Arrests — 9.8 percent decrease
- Value of Property Confiscated — 17.4 percent decrease

***AGRICULTURAL CRIME

- Total Volume — 20.8 percent increase
- Highest Targeted Area — Equipment
- Most Frequent Type of Crime — Thefts
- Total Property Loss — $4,222,327

* This does not include transient population.
** Drug seizure data is reported voluntarily by local law enforcement agencies and does not include seizures made exclusively by Federal agencies.
*** Agricultural crime is reported voluntarily by County Sheriff's Offices.

MODIFIED CRIME RATES USING TOURIST POPULATION DATA

Since 1930, when the Uniform Crime Reports program was undertaken, the method used to try to display crime data in an equitable manner has been based on the population of an agency's jurisdiction. The rates as calculated, provide agencies with the capability of measuring the current magnitude of the crime problem that exists in their jurisdiction, as it relates to the number of people living there.

These rates do not take into account the variety of other factors which will cause changes in reported crime from location to location. Tourism, as an example, is a major industry in Florida; however, the tourist population is not included in census counts or the crime rate.

At the present time, no accurate method is available for determining where these individuals are located and how long their visit will be. Thus, rates including tourists cannot be calculated for individual law enforcement jurisdictions. However, it is obvious that certain events and attractions bring a large influx of visitors to various communities at different periods of time. For example, Volusia County has a large volume of people in the county during the Daytona 500 Automobile Race and the college spring break. Fort Lauderdale has large numbers of persons during Easter and spring breaks. Additionally, with several major attractions in Florida, many people visit other areas at different times of the year, and some individuals from northern U.S. cities and Canada reside in central and southern Florida during the winter season.

Another group of transient persons that has had a significant effect on Florida's population are the Haitians and Cubans who have entered the United States. This problem, for the most part, is centered in southern Florida, particularly in Dade County.

Further study and research is being conducted in the use of tourist population data in computing modified rates for various aspects of crime in Florida. If further research shows that it is possible to obtain transient figures for specific locales, modified rates may be calculated for individual agencies throughout the state for inclusion in future editions of the annual report, *Crime In Florida.*

The modified crime rate is shown for each county on the next page along with other pertinent data.

To calculate the standard crime rate, the number of index offenses is divided by a particular county's population and then multiplied by 100,000. This gives a crime rate per 100,000 persons. For obtaining a modified crime rate, the only difference is that the daily average of tourists is added to a particular county population. The computation for the modified rate is then made in the same manner as the conventional crime rate. The arrest rate is calculated similarly, except that the number of arrests is used.

FLORIDA MODIFIED CRIME AND ARREST RATES[1]
1982

Type	Modified Rate[2]	Standard Calculation of Rate
Crime Rate	7,423.5	7,493.9
Arrest Rate	4,993.5	5,040.9

FDLE TABLE

[1] Estimates for arriving at a modified population total using the number of visitors were obtained from the Florida Division of Tourism.
[2] The modified crime and arrest rates are computed using the actual number of visitors and not by multiple visit counts.

MODIFIED CRIME RATE

COUNTY TOTALS — 1982

County	Population	Crime Rate[1]	Total Visitors[2]	Average Daily Visitors[3]	Modified Crime Rate[4]
Alachua	159,248	8,859.8	297,608	815	8,814.7
Baker	16,081	3,009.8	13,000	36	3,003.0
Bay	104,477	6,727.8	1,081,180	2,962	6,542.3

Hernando	52,973	4,726.9	94,716	260	4,703.8
Highlands	52,037	4,068.3	194,896	534	4,026.9
Hillsborough	677,733	9,509.6	1,941,800	5,320	9,435.6
Holmes	15,319	1,462.2	34,716	95	1,453.2
Indian River	66,915	5,176.7	252,024	691	5,123.8
Jackson	39,657	2,214.0	91,960	252	2,200.0
Jefferson	10,993	2,392.4	5,000	14	2,389.4

[1] This is the standard crime rate as calculated historically and shown elsewhere in this publication. It includes all reporting jurisdictions in each county and the associated total population.
[2] The total of this column will exceed the total visitors to the State because of multiple county visits by some individuals.
[3] Data in this column are prepared by dividing the total number of visitors by 365 to arrive at an average number per day.
[4] The average daily number of visitors is added to the population and then the modified crime rate is calculated in the manner as explained on the previous page.

MODIFIED CRIME RATE

COUNTY TOTALS — 1982 (Continued)

County	Population	Crime Rate[1]	Total Visitors[2]	Average Daily Visitors[3]	Modified Crime Rate[4]
Lafayette	4,076	98.1	6,572	18	97.7

FDLE CHART

FLORIDA CRIME INDEX

The figures presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation and distribution of crime in Florida on the basis of a Crime Index. These crimes figures are categorized by municipal, county, statewide, SMSA and Judicial Circuit totals. The seven offenses comprising the Index Crimes are:

- Murder
- Forcible Rape
- Robbery
- Aggravated Assault
- Breaking and Entering — Burglary
- Larceny
- Motor Vehicle Theft

These crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence and the reliability of reporting from citizens to law enforcement agencies. The Crime Index is used as a basic measure of crime. The Crime Index is the total number of Index Crimes that come to the attention of law enforcement agencies. During the year 1982, a total of 777,517 index offenses was reported. This represents a decrease of 38,922 offenses, or a 4.8 percent decrease from 1981.

In reviewing crime index figures the reader should keep in mind that there is currently no way of determining the total number of actual crimes committed. The Crime Index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. However, to be a true index, its relationship to total crime reported or unreported must be known. This relationship unfortunately has never been conclusively established and therefore, fluctuations in the Crime Index may or may not adequately reflect changes in the total crime picture. It is important to remember in reviewing the tables and graphs in this report that the volume of crime in a given area or municipality is directly related to the crime factors previously listed in this report.

VOLUME AND DISTRIBUTION OF CRIME INDEX OFFENSES

The Crime Index merely identifies the number of actual incidents known to law enforcement agencies, not the number of criminals who committed them or the number of injuries they caused. The seven Crime Index offenses are grouped into two categories — violent crimes and nonviolent crimes.

Violent Crime

Crimes of violence include murder, forcible rape, robbery and aggravated assault. Violent crimes involve the element of personal confrontation between perpetrator and victim and because of their very nature, are more serious than nonviolent crimes. These offenses for the year 1982 made up 12.0 percent of all reported index offenses. For the year 1982, violent crimes as a group dropped 4.8 percent from 1981.

Nonviolent Crime

For Uniform Crime Reports purposes, nonviolent crimes include the offenses of breaking and entering — burglary, larceny, and motor vehicle theft. The number of nonviolent crimes reported for 1982 was more than 7 times the number of violent crimes, amounting to 88.0 percent of all Index Crimes reported. Nonviolent crimes as a group recorded a decrease of 4.8 percent from the number reported for the year 1981.

VALUE OF PROPERTY STOLEN AND RECOVERED

Supplementary data relating to the crimes of murder, forcible rape, robbery, breaking and entering — burglary, larceny and motor vehicle theft is collected and analyzed. The resultant figures provide information concerning the value of property stolen and recovered by type of property. The total value of property stolen in Florida during 1982 was $568,611,280. This amounts to a decrease of $36,933,301, or a decrease of 6.1 percent from the year 1981. Law enforcement agencies were successful in recovering 21.1 percent of the loss or $120,115,002. Locally stolen motor vehicles accounted for the highest dollar loss, amounting to $180,725,551 for 1982. This figure represents an increase of 4.9 percent from 1981.

CRIME RATES*

The crime rate equals the number of Index Crimes per unit of population, generally per 100,000. It should be noted that the crime rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

* Rates do not include transient population totals.

The Crime Index rate for Florida for the year 1982 is 7,493.9 offenses per 100,000 inhabitants, a 7.3 percent decrease from the year 1981.

For the year 1982, violent crimes accounted for 900.3 offenses per 100,000 population, while the nonviolent crime rate amounted to 6,593.6 offenses per 100,000 population, reflecting a rate decrease of 7.3 percent for violent crimes and a 7.3 percent decrease for nonviolent crimes.

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

For 1982, 22.4 percent of all Index Crimes were cleared. The percentage of violent crimes cleared was 50.7 percent, while the clearance rate for nonviolent crimes was 18.6 percent. This compares with a 1981 total clearance rate of 20.9 percent and violent crime and nonviolent crime clearance rates of 46.6 and 17.4 percent, respectively.

NON-INDEX OFFENSES

Three offense classifications of reported crime do not fall into the makeup of the Index Crimes. These offenses are manslaughter by negligence, nonaggravated assault and arson. In 1982, there were 16 non-traffic manslaughters by negligence; all 16 of the total non-traffic manslaughters were cleared by arrest or exceptionally cleared.

There were 75,235 non-aggravated assaults reported for the year 1982 in Florida. Of these offenses, 47, 529 or 63.2 percent were cleared by arrest or by exception. Of these 47,529 total clearances, 91.1 percent were cleared through the involvement of persons aged 18 and above, while the other 8.9 percent involved persons aged 17 and under.

During 1982, there were 3,564 offenses of arson reported with $25,678,288 in property damage. The highest single category of arson, 1,030 reported, was single occupancy residential. Of the 3,564 arsons reported, only 451 or 12.7% were arsons of abandoned structures. The clearance rate for arson was 17.5%. There were 1,336 reported arsons of all types of residences, 722 of commercial structures and 1,013 of motor vehicles. The remaining 493 arsons were of other structures, other mobile property and miscellaneous.

MURDER

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 1,410 murders was reported by law enforcement agencies in Florida for the year 1982.

Murders accounted for 1.5 percent of all violent crimes and 0.2 percent of all index offenses reported.

The murder rate for the reporting period was 13.6 per 100,000 population.

There were 955 murders cleared by arrest or exceptionally cleared, amounting to a 67 7 percent clearance rate statewide.

The age group 25-29 accounted for 18.6 percent of persons arrested for murder. Males accounted for 86.1 percent of all persons arrested for murder.

Of all persons arrested for murder, 51.6 percent were white, 48.2 percent were black and 0.3 percent were of other races.

Of all murder victims, 60.4 percent were white, 38.5 percent were black and 1.1 percent of other races were murdered. Of all murder victims, males represented 77.0 percent.

Firearms were employed in 57.2 percent of all reported murders. The use of a knife or other cutting device was involved in 15.9 percent of the murders.

The murder of one family member by another accounted for 187 or 13.3 percent of all murders. Of these, 107 murders or 57.2 percent resulted from one spouse killing the other.

Altercations or quarrels between the victim and perpetrator, including money quarrels, lovers quarrels and drinking quarrels, accounted for 15.5 percent of all murders reported during the year 1982. Lovers quarrels recorded the highest involvement, accounting for 7.2 percent of the total murders.

FDLE TABLE

FORCIBLE RAPE

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 5,586 forcible rapes (including attempts) was reported by law enforcement agencies in Florida for the year 1982. Of all rapes, 4,278 were by force and 1,308 were attempted rapes.

Forcible rapes accounted for 6.0 percent of all violent crimes and 0.7 percent of all index offenses reported.

The forcible rape rate for the year 1982 amounted to 53.8 rapes for every 100,000 persons in the state.

There were 2,787 forcible rapes cleared by arrest or exceptionally cleared, amounting to a 49.9 percent clearance rate statewide.

Of the reported arrests for forcible rape during the year 1982 48.7 percent were of persons under the age of 25.

Of all persons arrested for forcible rape during the year 1982 49.3 percent were white, 50.3 percent were black and 0.4 percent were of other races.

ROBBERY

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 31,001 robberies was reported by law enforcement agencies in the State of Florida for the year 1982.

Robberies accounted for 33.2 percent of all violent crimes as a group and 4.0 percent of the total crime index.

The robbery rate amounted to 298.8 robberies for every 100,000 persons in the state.

There were 7,166 robberies cleared by arrest or exceptionally cleared, representing a clearance rate of 23.1 percent statewide.

The age group 25-29 accounted for 18.9 percent of persons arrested for robbery. Males accounted for 92.5 percent of all persons arrested for robbery.

Of all persons arrested for robbery, 38.9 percent were white, 61.1 percent were black and 0.1 percent were of other races.

The largest number of actual offenses of robbery, 15,978 in number, occurred under the Highway category, which represents 51.5 percent of all offenses of robbery reported during 1982. The armed robber was responsible for over 57.1 percent of the reported offenses.

The value of property stolen in actual offenses of robbery totaled $31,794,034 or 5.6 percent of the total value of property stolen during the year. The highest average loss, amounting to $5,413 occurred in bank robberies. The lowest average loss, $297, occurred in convenience store robberies.

FDLE TABLE

AGGRAVATED ASSAULT

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 55,409 aggravated assaults was reported by law enforcement agencies for the year 1982.

Aggravated assaults accounted for 59.3 percent of all violent crimes and 7.1 percent of all index crimes reported.

The rate of aggravated assaults amounted to 534.0 assaults for each 100,000 persons.

There were 36,443 aggravated assaults cleared by arrest or exceptionally cleared which represents a clearance rate of 65.8 percent statewide.

Persons under the age of 30 accounted for 60.0 percent of the arrests for aggravated assault. Arrests of males for aggravated assault outnumbered females by a 6 to 1 margin.

Analysis of aggravated assault arrests by race indicates that 56.1 percent of all persons arrested were white, 43.6 percent were black and 0.3 percent were of other races.

The use of firearms represented 16,022 offenses and comprised 28.9 percent of all aggravated assaults.

FDLE TABLE

BREAKING AND ENTERING — BURGLARY

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 211,916 burglaries was reported by law enforcement agencies for the year 1982.

Burglaries accounted for 31.0 percent of all nonviolent crimes and 27.3 percent of all index offenses reported.

The burglary rate for the reporting period was 2,042.5 per 100,000 population.

There were 36,732 burglaries cleared by arrest or exceptionally cleared. This amounts to a clearance rate of 17.3 percent statewide.

The age group accounting for the highest percentage of persons arrested for burglary, 11.8 percent, occurred in the 25-29 age category. Males accounted for 94.4 percent of persons arrested for burglary.

Of all persons arrested for burglary, 63.7 percent were white, 36.1 percent were black and 0.2 percent were of other races.

Of the three categories of burglary, forcible entry was the most prevalent, with 159,859 offenses. This figure represents 75.4 percent of the total burglaries committed. Unlawful entry (no force) accounted for 15.6 percent, while 9.0 percent were attempts.

The value of property stolen in actual offenses of burglary totaled $190,023,914 or 33.4 percent of the total value of property stolen during the year.

Residential burglaries accounted for 63.3 percent of the total offenses reported, with a total dollar loss of $121,791,509. Where time could be determined, 46.2 percent of residential burglaries occurred during the night hours.

FDLE TABLE

LARCENY

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 427,427 larcenies was reported by law enforcement agencies for the year 1982.

Reported larcenies accounted for 62.5 percent of nonviolent crimes and 55.0 percent of all index offenses reported.

The larceny rate for Florida for the year amounted to 4,119.6 per 100,000 population.

There were 81,660 larcenies cleared by arrest or exceptionally cleared. This represents a clearance rate of 19.1 percent statewide.

The age group of 25 to 29 years was responsible for 13.6 percent of persons arrested for larceny. Males accounted for 70.4 percent of persons arrested for all categories of larceny.

Of all persons arrested for larceny, 6305 percent were white, 36.2 were black and 0.3 percent were of the other races.

During the year 1982, the value of property stolen in actual offenses of larceny totaled $174,057,680. This constitutes 30.6 percent of the total value of property stolen.

FDLE TABLE

MOTOR VEHICLE THEFT

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 44,768 motor vehicle thefts was reported by law enforcement agencies in Florida during 1982.

Motor vehicle thefts made up 6.5 percent of all nonviolent crime and 5.8 percent of all index offenses reported.

The statewide motor vehicle theft rate for the year amounted to 431.5 per 100,000 population.

There were 8,521 motor vehicle thefts cleared by arrest or exceptionally cleared, representing a clearance rate of 19.0 percent statewide.

The age group responsible for the highest percentage of persons arrested for motor vehicle theft, 12.6 percent, occurred in the 25-29 year old age category. Of all persons arrested for motor vehicle theft, 91.1 percent were males.

Of all persons arrested for motor vehicle theft, 73.8 percent were white, 25.9 percent were black and 0.3 percent were of other races.

The average value of a motor vehicle theft during the reporting period was $3,851.

Motor vehicles reported stolen during the commission of any Part I offense totaled $180,725,551; $84,670,798 was recovered which constitutes a 46.9 percent recovery rate in value. Of the total number of motor vehicles recovered, 69.1 percent had originally been stolen from the same jurisdiction.

FDLE TABLE

ARSON

(See page 9 for definition)

1982 — SUMMARY ANALYSIS

A total of 3,564 arsons was reported by Florida law enforcement agencies for the year 1982.

The number of arsons committed per 100,000 persons was 34.4.

There were 623 arsons cleared by arrest or exceptionally cleared. This represents a statewide clearance rate of 17.5 percent.

The age group accounting for the highest percentage of persons arrested for arson was the 25-29 bracket with 14.9 percent. Of all persons arrested for arson, 84.7 percent were males.

Of all persons arrested for arson, 73.4 percent were white, 26.6 percent were black and 0.0 percent were of other races.

Of all property classifications, single occupancy residential accounted for the largest number of arsons with 1,030 offenses or 28.9 percent of all arsons. The percentage of arsons involving structures was 61.0 percent as compared to 30.6 percent for mobile property. The remaining percentage involved destruction of crops, timber, signs and other miscellaneous property. Offenses involving uninhabited structures were 451 or 12.7 percent of all arsons.

The value of property damaged by arson totaled $25,678,288. Other residential consisted of 3.2 percent of the total amount or $820,283. Mobile property consisted of 8.5 percent of the total amount damaged or $2,185,816.

* The offense data reflected in this publication is by geographic jurisdiction and is not intended to depict an individual law enforcement agency's activity. Included in the unincorporated areas are those incorporated jurisdictions who report this information to the law enforcement agency responsible in that geographic jurisdiction. The totals reflect all UCR data submitted on crime activity occurring within that Community Type, except that activity as reported by state law enforcement agencies.

** Comparable data not available for prior years.

Florida Arrest Data

FLORIDA ARREST INFORMATION

The Florida Uniform Crime Reports Program requires the periodic reporting of data concerning persons arrested in the state. A record of total arrest activity for criminal acts in both Part I and Part II crime classes is received from contributing agencies in Florida and is analyzed and arranged according to age, sex, race and residency of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of 523,005 arrests for Part I and Part II criminal acts were reported during the year 1982, up 12.8 percent from the 463,454 arrests reported for the year 1981. Based on 1982 population estimates, this amounts to a statewide arrest rate for the year 1982 of 5,040.9 arrests for each 100,000 persons in Florida.

A person is counted each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. A juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be counted or when law enforcement or other official action beyond a mere interview, warning or admonishment is taken.

When reviewing arrest figures it should be remembered that arrest counts do not reflect the specific number of persons arrested since one individual person may be arrested several times during any given year for the same or different offenses. This occurs frequently for such crimes as disorderly intoxication, disorderly conduct and similar violations. However, arrest data is useful in measuring the extent of law enforcement activity in a given geographical area as well as providing an index for measuring involvement in criminal acts by the age, sex, race and residence of the perpetrators.

Analysis of reported arrests for the year 1982 indicates that 27.9 percent of all arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault, breaking and entering — burglary, larceny and motor vehicle theft). Arrests for larceny comprised the highest percentage of arrests for Part I crimes, amounting to 50.6 percent. The highest percentage of arrests for Part II offenses, excluding the all other category, was driving under the influence which constituted 15.8 percent.

VIOLENT CRIME ARRESTS

During the year, 34,073 arrests for crimes of violence (murder, forcible rape, robbery and aggravated assault) on a statewide basis amounted to 23.3 percent of all arrests for the Part I offenses and 6.5 percent of the total arrests for all offenses. Arrests for aggravated assault were the most frequent, representing 68.1 percent of the total arrests for violent crimes. During 1981, violent crime arrests amounted to 23.2 percent of all Part I arrests and 7.0 percent of all arrests.

NONVIOLENT CRIME ARRESTS

During the year, 111,794 arrests for nonviolent crimes (breaking and entering—burglary, larceny and motor vehicle theft) comprised 76.5 percent of all Part I arrests and 21.4 percent of all arrests reported during the year 1982. The highest percentage of nonviolent crime arrests, 66.2 percent, occurred in the larceny category. During 1981, nonviolent crime arrests amounted to 76.8 percent of all Part I arrests and 23.0 percent of all arrests.

NONRESIDENT ARRESTS

Upon arresting an offender for a criminal violation committed within a community, the responsible law enforcement agency may find that the perpetrator's residence is in another community or even another state. The Florida Uniform Crime Reports Program provides for the collection of residency data of those arrested in order to measure the criminal mobility factor in Florida.

It was found that during 1982, of the total arrests reported by county and municipal law enforcement agencies for their respective jurisdictions, 5.9 percent of those arrested resided outside the State of Florida and 8.7 percent resided in a county (within Florida) other than the one in which the offense was committed.

The total volume of out of state resident arrests for the year 1982 increased by 6.9 percent, while out of county resident arrests increased by 6.1 percent over the year 1981.

The highest percentage of nonresident arrests reported during the year occurred in the motor vehicle theft category for Part I offenses and the liquor laws category for Part II offenses, amounting to 21.8 percent and 28.9 percent respectively.

AGE ANALYSIS

The distribution of those persons arrested by age categories during the year 1982 continues to illustrate the involvement in criminal activity by the youth of Florida. Nearly 5.0 percent of all persons arrested for the year were under the age of 15, 14.6 percent were under 18 and 28.6 percent of all persons arrested were under the age of 21.

An evaluation of reported Part I arrests indicates that 27.9 percent of persons arrested for such crimes were under the age of 18. The most frequent Part I juvenile arrests during the year were for larceny amounting to 52.3 percent of the total reported Part I juvenile arrests.

Total juvenile arrests for all offenses decreased by 8.6 percent from the reported figure for the year 1981. Adult arrests showed an increase of 17.6 percent from the figures for the year 1981.

Arrests of persons age 18 and over amounted to 85.4 percent of the total number of Part I and Part II arrests reported. Of the total adult arrests, 20.2 percent occurred in the 25 to 29 age group.

SEX AND RACE ANALYSIS

A percentage distribution by sex of all reported arrests for the year 1982, reveals that 82.8 percent of all persons arrested were male. Males were involved in 80.6 percent of all arrests for Part I offenses, with primary involvement in the crime of larceny. Total male arrests increased by 12.7 percent over the year 1981. The largest increase in male arrests for Part I offenses was registered in the forcible rape category, up 20.2 percent from the year 1981.

Female arrests amounted to 17.2 percent of the total arrests reported and 19.4 percent of all arrests for Part I offenses. Further evaluation of arrest data for Part I offenses discloses that females were primarily involved in arrests for larceny, accounting for 29.6 percent of the total arrests for this offense. Total female arrests increased by 13.5 percent over the year 1981. Part I female arrests registered the largest increase in the aggravated assault category, up 16.9 percent over the year 1981.

An analysis of arrests for violent and nonviolent crime classes for the reporting period shows that 87.8 percent of all reported arrests for the violent crimes of murder, forcible rape, robbery and aggravated assault involved males. Females accounted for 12.2 percent of total violent crime arrests. Female arrests comprised 21.7 percent of the nonviolent crimes of breaking and entering—burglary, larceny and motor vehicle theft, while 78.3 percent of the nonviolent crime arrests for the year involved males.

A distribution analysis of total arrests by race for the year 1982 indicates that 72.0 percent of all arrested persons were white, 27.7 percent were black, with the remaining 0.2 percent of other races.

With regard to violent crimes within the Part I offenses (murder, forcible rape, robbery and aggravated assault), 51.6 percent of those arrested were white, 48.2 percent were black and the remaining 0.2 percent of other races.

A comparison of arrest data for the nonviolent crimes of breaking and entering—burglary, larceny and motor vehicle theft indicates that 64.1 percent of those arrested were white, 35.7 percent were black, with the remaining 0.2 percent of other races.

DISPOSITION OF JUVENILES

The Florida UCR Program requires that contributing agencies provide specific disposition information on all juveniles arrested. The UCR Program specifies five basic information categories for use by law enforcement agencies in reporting juvenile arrest dispositions. Juveniles may be *(1) handled within the department and released, (2) referred to juvenile court, juvenile authorities or probation department, (3) referred to a welfare agency, (4) referred to another law enforcement agency, or (5) referred to criminal or adult court.*

During the year 1982, on a statewide basis, approximately 71.2 percent of all juveniles arrested were referred to juvenile court or probation department, 25.2 percent were handled directly by law enforcement agencies and released, 0.9 percent were referred to welfare agencies, 2.5 percent were referred to criminal or adult court and the remaining 0.2 percent were referred to other law enforcement agencies for disposition.

Judicial Circuit Arrest Data

FIRST JUDICIAL CIRCUIT
- Escambia
- Okaloosa
- Santa Rosa
- Walton

SECOND JUDICIAL CIRCUIT
- Franklin
- Gadsden
- Jefferson
- Leon
- Liberty
- Wakulla

THIRD JUDICIAL CIRCUIT
- Columbia
- Dixie
- Hamilton
- Lafayette
- Madison
- Suwannee
- Taylor

FOURTH JUDICIAL CIRCUIT
- Clay
- Duval
- Nassau

FIFTH JUDICIAL CIRCUIT
- Citrus
- Hernando
- Lake
- Marion
- Sumter

SIXTH JUDICIAL CIRCUIT
- Pasco
- Pinellas

SEVENTH JUDICIAL CIRCUIT
- Flagler
- Putnam
- St. Johns
- Volusia

EIGHTH JUDICIAL CIRCUIT
- Alachua
- Baker
- Bradford
- Gilchrist
- Levy
- Union

NINTH JUDICIAL CIRCUIT
- Orange
- Osceola

TENTH JUDICIAL CIRCUIT
- Hardee
- Highlands
- Polk

ELEVENTH JUDICIAL CIRCUIT
- Dade

TWELFTH JUDICIAL CIRCUIT
- DeSoto
- Manatee
- Sarasota

THIRTEENTH JUDICIAL CIRCUIT
- Hillsborough

FOURTEENTH JUDICIAL CIRCUIT
- Bay
- Calhoun
- Gulf
- Holmes
- Jackson
- Washington

FIFTEENTH JUDICIAL CIRCUIT
- Palm Beach

SIXTEENTH JUDICIAL CIRCUIT
- Monroe

SEVENTEENTH JUDICIAL CIRCUIT
- Broward

EIGHTEENTH JUDICIAL CIRCUIT
- Brevard
- Seminole

NINETEENTH JUDICIAL CIRCUIT
- Indian River
- Martin
- Okeechobee
- St. Lucie

TWENTIETH JUDICIAL CIRCUIT
- Charlotte
- Collier
- Glades
- Hendry
- Lee

Florida's Judicial Circuits, as outlined on the map, are listed on the following pages with corresponding arrest data.

* The arrest data reflected in this publication is by geographic jurisdiction and is not intended to depict an individual law enforcement agency's activity. Included in the unincorporated areas are those incorporated jurisdictions who report this information to the law enforcement agency responsible in that geographic jurisdiction. The totals reflect all UCR data submitted on crime activity occurring within that Community Type, except that activity as reported by state law enforcement agencies.

** Comparable data not available for prior years.

Narcotic Drug Law and Gambling Arrests

NARCOTIC DRUG LAW ARRESTS

Information concerning arrests for narcotic drug law violations is collected and analyzed in Florida according to specific drug categories and by sale or possession violations. Evaluation of arrest data reported for the year 1982 disclosed that 29.1 percent of all persons arrested for narcotic drug law violations were under the age of 21. Persons under age 18 accounted for 11.4 percent of all persons arrested for narcotic drug law violations. A breakdown of arrests by type indicates that 82.9 percent were for possession violations and 17.1 percent were for sale violations. Analysis of individual drug categories (sale and possession together) showed that the highest percentage of all arrests, 72.3 percent, involved marijuana. The lowest percentage of arrests occurred in the methadone narcotics category, amounting to only 0.3 percent of the total reported narcotic arrests. Reported arrests for narcotic drug law violations showed an overall numeric volume increase of 1,384 arrests, or a 4.0 percent increase over the year 1981.

GAMBLING ARRESTS

Arrests for gambling offenses during the year 1982 amounted to 0.3 percent of all reported arrests for Part I and Part II offenses. Males accounted for 89.7 percent of those persons arrested for gambling offenses. Persons under the age of 18 made up only 2.6 percent of all gambling arrests. The age category 25 to 29 made up 16.5 percent of all gambling arrests.

Total reported arrests for gambling offenses during the year 1982 increased 8.5 percent over the year 1981.

FDLE TABLE

Judicial Circuit Narcotic Drug Law and Gambling Arrests

FIRST JUDICIAL CIRCUIT
- Escambia
- Okaloosa
- Santa Rosa
- Walton

SECOND JUDICIAL CIRCUIT
- Franklin
- Gadsden
- Jefferson
- Leon
- Liberty
- Wakulla

THIRD JUDICIAL CIRCUIT
- Columbia
- Dixie
- Hamilton
- Lafayette
- Madison
- Suwannee
- Taylor

FOURTH JUDICIAL CIRCUIT
- Clay
- Duval
- Nassau

FIFTH JUDICIAL CIRCUIT
- Citrus
- Hernando
- Lake
- Marion
- Sumter

SIXTH JUDICIAL CIRCUIT
- Pasco
- Pinellas

SEVENTH JUDICIAL CIRCUIT
- Flagler
- Putnam
- St. Johns
- Volusia

EIGHTH JUDICIAL CIRCUIT
- Alachua
- Baker
- Bradford
- Gilchrist
- Levy
- Union

NINTH JUDICIAL CIRCUIT
- Orange
- Osceola

TENTH JUDICIAL CIRCUIT
- Hardee
- Highlands
- Polk

ELEVENTH JUDICIAL CIRCUIT
- Dade

TWELFTH JUDICIAL CIRCUIT
- DeSoto
- Manatee
- Sarasota

THIRTEENTH JUDICIAL CIRCUIT
- Hillsborough

FOURTEENTH JUDICIAL CIRCUIT
- Bay
- Calhoun
- Gulf
- Holmes
- Jackson
- Washington

FIFTEENTH JUDICIAL CIRCUIT
- Palm Beach

SIXTEENTH JUDICIAL CIRCUIT
- Monroe

SEVENTEENTH JUDICIAL CIRCUIT
- Broward

EIGHTEENTH JUDICIAL CIRCUIT
- Brevard
- Seminole

NINETEENTH JUDICIAL CIRCUIT
- Indian River
- Martin
- Okeechobee
- St. Lucie

TWENTIETH JUDICIAL CIRCUIT
- Charlotte
- Collier
- Glades
- Hendry
- Lee

Florida's Judicial Circuits, as outlined on the map, are listed on the following pages with corresponding narcotic arrest data.

Narcotic Drug Seizures and Confiscated Property

FLORIDA DRUG SEIZURES

Background

Over the past several years, illegal drugs entering Florida have become an increasing problem and concern for Florida law enforcement personnel. By way of response to this concern, a drug survey form was developed to collect data on various narcotics and other controlled substances.

The results of this survey involved only those seizures in which 100 pounds or more of marijuana, 28 grams or more of cocaine, 4 grams or more of heroin or its derivatives, 200 grams or more of quaaludes and 28 grams or more of PCP were confiscated. The data collected were forwarded on a voluntary basis by local UCR contributing agencies. Rules regarding geographical jurisdiction, as used for regular UCR data, were employed in submitting the survey information. Unless local agencies assisted in seizures by federal agencies, the data from those seizures will not be included in this compilation.

For simplicity, statistical data will be presented for only specific types of drug seizures, which are marijuana, cocaine, heroin, quaaludes, and PCP. Joint seizures, where more than one drug has been confiscated are grouped under the appropriate category of that drug which had the most poundage seized. However, all weights of drugs confiscated during joint seizures are included in the totals.

Working closely with this survey program, the Department's Division of Local Law Enforcement Assistance provides intelligence support through the Florida Intelligence Center. This support includes pursuing investigative leads, providing an interface with the Federal Narcotics Intelligence Center (EPIC) in El Paso, Texas, and maintaining a central repository for intelligence relating to major criminal suspects including narcotics violators.

1982 — SUMMARY ANALYSIS

Of the 388 Florida drug seizures reported, 130 seizures or 33.5% were marijuana, 196 seizures or 50.5% were cocaine, 5 seizures or 1.3% were heroin, 54 seizures or 13.9% were quaaludes and 3 seizures or 0.8% were PCP. Of the total seizures that occurred 213 were outside the city limits and 138 were made at residences. There were 286 of the 388 seizures occurring between the hours of 12:01 PM and 12 Midnight.

Florida residents accounted for 78.0% of the total number of persons arrested. The largest number of arrests took place in Dade County with 323 or 36.6% of the total. Broward County had the next highest number of arrests with 177 or 20.1%.

With $7,927,424 worth of property seized, boats and ships consisted of 30.2% of the total amount or $2,397,200. The largest number of any one type of item confiscated was that of cars, which constituted 12.7% of the total property value seized.

FLORIDA DRUG SEIZURES BY TYPE OF SEIZURE, ARRESTS AND LOCATION
1981 - 1982

Classification	1981	1982	Percent Change
Seizure and Arrest Data			
Total number of seizures reported	475	388	- 18.3
Marijuana seizures (100 lbs. or more)	219	130	- 40.6

Agricultural Crimes

AGRICULTURAL CRIME

Background

With crime increasing in the rural areas of Florida, high property losses are causing many problems and hardships on those persons who depend on agriculture as their livelihood. Agricultural crime has caused great concern among state and local law enforcement agencies throughout Florida. As a result, a special agricultural crime collection data form was developed to collect information relating exclusively to agricultural crime. Collection of agricultural crime data began in January, 1981.

Since data would be collected specifically for agricultural crime, a definition had to be established. Agricultural crime is defined as: "Any willful or malicious act committed by any individual(s), which results in damage to or loss of livestock, crops, land, materials, equipment or structures used in or produced as a result of any agricultural practice, excluding commercial agricultural businesses not owned by the producer." Information is collected for incident and property data, location data and persons data. Recovered property is included only for the amount recovered at the time of the incident.

The agricultural crime collection form is forwarded only to sheriff's offices because the nature of the data being requested is generally not reported to a municipal law enforcement agency. Agricultural crime data is submitted to the UCR Program on a voluntary basis and because of that and the fact that only sheriff's offices submit the information, the true number of these types of crimes may not be totally shown.

Summary

Statistics during 1982 continued to show that agricultural crime is a serious problem in Florida with 1,375 incidents voluntarily reported by 38 of the 67 sheriff's offices. The largest percentage of this type of crime was thefts which occurred in the areas of the state on a grove or orchard that was bordered by a secondary, paved road.

Only 5.0 percent of the property stolen during agricultural crimes was recovered. Stated another way, the farmer recovers only one dollar to every twenty dollars lost by theft, vandalism, or arson.

In less than 35 percent of all cases, could animals or property be identified if located. However, even a smaller percentage of all animals or property were marked, branded or tagged. This could indicate that even if animals or property are located, no proof may exist that the livestock or property belongs to a specific owner. Regarding the theft of livestock, cattle theft had the largest number of incidents with 145 or 51.8 percent. The largest number of any one type of livestock stolen was that of cattle with over 460 being stolen valued at over 171,000 dollars.

Citrus products represented the largest proportion of thefts and vandalism in the products and lands category with over 8,900 boxes stolen. Over 5,200 boxes of fruit and nuts were also stolen.

Various items of equipment were stolen, including over 50 self-propelled farm machines that were valued at over 280,000 dollars. Examples of some of the other items taken included over 58,000 gallons of fuel, several hundred tires, and various tools.

During 1982, only one incident of arson was reported. The total value destroyed, including equipment inside, was 2,700,000 dollars in this incident.

A total of 139 arrests were reported as a result of the 1,375 agricultural crimes that occurred during 1982. Of the total persons arrested, 85.6 percent were residents of Florida.

FDLE CHART

Victim Characteristics

VICTIM DATA COLLECTION SYSTEM

The Victim Data Collection System collected, compiled and analyzed victim data for the period July 1, 1981 through June 30, 1982. Utilizing a procedure which involved population groupings and the total number of reported offenses in each grouping, agencies were randomly selected for each group by using a computer generated table of random numbers. The resulting selection of thirty-eight participating agencies has assured the statistical validity of data collected, so that it can be used to arrive at a statistically accurate projection of total victim information for the entire state. Within the Uniform Crime Reports Section, of the Florida Department of Law Enforcement, statistical offense and arrest data has been collected for many years. Therefore, previously established and familiar UCR guidelines, definitions and methodology were incorporated as an adaptation to the UCR Program.

Total Number of Victims By Sex and Race July 1, 1981 - June 30, 1982

LAW ENFORCEMENT PERSONNEL KILLED OR ASSAULTED

The Florida Uniform Crime Reporting Program requires the monthly compilation of statistical information relating to law enforcement officers killed in the line of duty and the number of assaults made on law enforcement officers.

The killing or assault of a law enforcement officer is an increasingly serious problem faced by the law enforcement administrator and should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operations and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order. It is a deplorable situation when those persons who have chosen a career in law enforcement must assume the risk of being killed or assaulted by a member of the society they have sworn to protect.

LAW ENFORCEMENT OFFICERS KILLED

Five law enforcement officers were killed in the line of duty in Florida during 1982.

This is one less than was killed in 1981. From 1968 through 1982, there have been sixty-five officers killed in the line of duty. All of the offenses, except for one, have been cleared by arrest or by exceptional means.

On June 3, 1982, a deputy with the Palm Beach County Sheriff's Office was killed with a .223 caliber rifle. The deputy was responding to a bomb threat.

On July 26, 1982, an officer with the Daytona Beach Police Department died as a result of injuries received when he was shoved from a car. The officer was assisting another officer with a disturbance in a lounge parking lot.

On September 5, 1982, an officer with the Hollywood Police Department was killed with her .357 magnum revolver while removing a suspect from a vehicle which was on fire. The suspect's car had struck a police vehicle.

On October 19, 1982, an officer with the Penscola Police Department was killed with a .22 caliber revolver during the armed robbery of a bank.

On November 6, 1982, a deputy with the Volusia County Sheriff's Office was killed with a .223 caliber rifle during a domestic disturbance.

Three victims were killed from a range of less than 5 feet, one at 40 feet, and one at 163 feet. All of the deaths except one occurred without any warning alerting the officers to immediate danger.

The officers killed had 4 years, 7 years, 7 months, 3 years and 6 years of law enforcement experience, respectively. Their ages were 41, 26, 27, 26 and 35. The ages of the suspects were 18, 22, 22, 24, 25, 30, 32, 34 and 37.

The time of occurrences were 2:54 AM, 2:10 PM, 8:49 PM, 10:50 PM and 11:15 PM.

ASSAULTS ON LAW ENFORCEMENT OFFICERS

The attitude of disrespect for law enforcement officials and the failure of citizens to come to the aid of the officers being attacked as they attempt to perform their lawful duties is one of the serious problems facing law enforcement today. A total of 6,032 assaults on state, county and municipal law enforcement officers in Florida were reported during the year 1982. This represents a 10.9 percent increase over the 5,438 assaults reported for the year 1981. While every assault does not result in personal injury to the officers involved, many of them did result in physical harm to the officer and loss of duty time in many cases. During 1982, 1,198 or 19.9 percent of these assaults resulted in personal injury to some extent, while 1981 showed a 24.6 percent physical injury rate.

LAW ENFORCEMENT EMPLOYEE DATA

The Florida Uniform Crime Reporting Program, in addition to collecting basic offense and arrest information, provides for the annual compilation of statistical information relating to county and municipal law enforcement employees.

Specific information concerning the number of law enforcement employees reflects that there were 31,276 full-time sworn and civilian employees as of October 31, 1982, excluding the 3,990 state law enforcement, campus police and Seminole Indian Reservation employees. This reflects an increase of 9.7 percent over the 28,504 reported as of October 31, 1981.

In 1982, the average number of full-time law enforcement employees (both police and sheriff employees), including civilian personnel, amounted to 3.0 employees for each 1,000 inhabitants of the state. This represents an increase of 7.1 percent over the 1981 rate. The rate based on sworn personnel only (excluding civilian employees) amounted to 1.9 per 1,000 population, which reflects no change over the 1981 rate. The reader is reminded that the employee rates, expressed here and within the various charts, should not be construed as representing recommended ratios for Florida law enforcement agencies. These rates do not take into account the previously mentioned factors and merely represent an average based on county and municipal totals. This rate does not include the state law enforcement, campus police or Seminole Indian Reservation employees.

LAW ENFORCEMENT EMPLOYEE RATES

The rate of law enforcement employees per 1,000 population in any given community is influenced by a number of factors, much the same as the crime rate. Employee rates differ among agencies since, in particular, there is a wide variation in the responsibilities and level of activity within the various law enforcement agencies. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location and other conditions which exist in the area generating the need for law enforcement services.

The relative stability of population factor, for instance, is particularly evident in Florida, with its numerous resort areas having high mobile and seasonal populations. Obviously, the need for law enforcement services in such areas is different from that of locales with a relatively fixed population.

COUNTY SHERIFF'S DEPARTMENTS

As of October 31, 1982, there were 14,855 persons (sworn and civilian) employed full time in Florida's 66 countywide law enforcement agencies (Office of the Sheriff — Jacksonville is included in the municipal figures). Of these, 8,187 were sworn sheriffs and deputies amounting to a rate of 1.6 sworn personnel per 1,000 population, reflecting a decrease of 5.9 percent from the rate of sworn officers in 1981. The 1982 civilian employees constitute a rate of 1.3 employees per 1,000 estimated population. The computation of the personnel ratios is based on the estimated population of the unincorporated areas of the counties and not on the entire county estimate. This does not include the state law enforcement, campus police or Seminole Indian Reservation employees.

In an attempt at comparisons of employment levels of individual sheriff's departments with other agencies, consideration must be given to certain functions that are peculiar to a sheriff's department. In addition to their active role in criminal matters, they may serve civil process, administer major jail facilities and furnish a bailiff staff for the courts. These functions are usually performed by sworn personnel, thereby presenting a misleading picture of the actual enforcement strength of the department.

MUNICIPAL POLICE DEPARTMENTS

Of the 16,421 full-time employees (sworn and civilian) employed by 269 municipal police departments in Florida as of October 31, 1982, 11,893 were sworn personnel. This amounts to a rate of 2.2 sworn personnel per 1,000 estimated inhabitants. The number of municipal sworn employees increased 6.1 percent from 1981, and the rate reflected an increase of 4.8 percent over the 2.1 per 1,000 population in 1981. The 4,528 civilian employees constituted a rate of 0.8 employees per 1,000 population. This does not include the state law enforcement, campus police or Seminole Indian Reservation employees.

SEX OF LAW ENFORCEMENT EMPLOYEES

The year 1972 represented the first year that information was collected on a statewide basis concerning the sex of sworn and civilian full-time employees. Male and female breakdowns are now required on both civilian and sworn employees as well as the total law enforcement employees. As of October 31, 1982, males constituted 75.2 percent of all employees while there existed 24.8 percent full-time female employees. Of the sworn personnel, 92.9 percent were male and 7.1 percent were female employees. These sworn rates differed markedly from the staff function rates as males made up 43.6 percent of the civilian employees while 56.4 percent were females. This does not include the state law enforcement, campus police or Seminole Indian Reservation employees.

Glossary of Terms

GLOSSARY OF TERMS

ADULT — For Florida Uniform Crime Reports purposes, a person age 18 or above.

AGRICULTURAL CRIME — Any willful or malicious act committed by any individual(s), which results in damage to or loss of livestock, crops, land, materials, equipment or structures used in or produced as a result of any agricultural practice, excluding commercial agricultural businesses not owned by the producer.

ARREST RATE — The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST — For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense and (3) turned over to the court for prosecution.

CRIME FACTORS — Conditions which affect the amount and type of crime that occurs in a geographical area. (See page 10 for the list of Crime Factors.)

CRIME INDEX — The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classifications used in the Index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft. Each of these offenses is referred to as an "Index Offense".

CRIME RATE — The number of Index Offenses reported for each unit of population, generally per 100,000. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses ÷ 10,000 population x 100,000 = 5,000 Crime Rate).

EXCEPTIONAL CLEARANCE — A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE — For Florida Uniform Crime Reports purposes, a person under the age of 18.

NONRESIDENT OUT OF COUNTY, ARRESTED — An arrested person who resides within the State of Florida, but outside the county in which the arrest report is made.

NONRESIDENT OUT OF STATE, ARRESTED — An arrested person who resides outside the State of Florida, but committed crime(s) in the State of Florida.

NONVIOLENT CRIME — Consists of the Index Offenses of Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft.

PART I OFFENSES — The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur most frequently. The tabulation of Part I offenses provides a count of "offenses known". (See page 9 for a listing of these offenses).

PART II OFFENSES — The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Tabulations of Part II offenses are limited to arrest information only.

VICTIM — Any person who suffers injury or personal property loss or who is put in fear of such injury or loss, as the result of an unlawful act of another.

VIOLENT CRIME — Consists of the Index Offenses of Murder, Forcible Rape, Robbery and Aggravated Assault.
